Everyone

Hi everyone,

Jason & I met yesterday and he walked me through the process of publishing via RStudio (R environment). It is **infinitely** simpler than publishing via VS Code (Python environment).

Please schedule a 30min or 1 hr session with me ASAP to get your first book imported into gh-pages. And you **MUST** utilize Jason's office hour this coming Monday!!!!

No worrying about content (that's what the 340.600 class is for). We merely wish to succeed in moving toward open science -- the open science we are trying to incorporate into our workflow.

Here's my first quarto book (by RStudio)

Abi
